1.    Work out.

a)         9  6  5  7          b)    7 10  1 10          c)    9  10
                                    8  5  2  1                5 10  4 10
                                                              6  0  5  0

      -  4  3  1  2              -  3  7  1  4              -  4  9  5  8
      ─────────────              ─────────────              ─────────────
         5  3  4  5                 4  8  0  7                 1  0  9  2
      ═════════════              ═════════════              ═════════════

_____

2.    Find the **difference** between    (larger-smaller)

a)    6375 and 2150    | b)    3268 and 4395    | c)    5060 and 945

        6  3  7  5     |           8 10         |        4 10 5 10
      - 2  1  5  0     |         4  3  9  5     |        5  0  6  0
      ──────────       |       - 3  2  6  8     |      -    9  4  5
        4  2  2  5     |       ──────────       |      ──────────
                       |         1  1  2  7     |        4  1  1  5

Answer:  4 225        | Answer:  1 127          | Answer:  4 115

_____

3.    Loïc has 25 marbles.  He has 8 marbles more than Wyans.  How many
      (Wyans has 8 marbles less than Loïc)

      marbles does Wyans have ?

                                    1  10
                                    2   5
                                 -      8
                                 ─────────
                                    1   7

      Answer: 17 marbles.

_____

4.    Selvana, Judith and Tracie have Rs 5000 altogether.  Selvana has Rs 1700
      and Judith has Rs 1500.  How much money does Tracie have ?

      +1                          4  10
        1  7  0  0                5  0  0  0
      +  1  5  0  0             -  3  2  0  0
      ─────────────             ─────────────
         3  2  0  0                1  8  0  0

      Answer:  Rs 1 800.
