A visit to a Zoo

It was a Sunday during the month of March. The weather was very pleasant. My parents took my sister and I to the zoo. It was our first visit there. My sister and I were happy.

The zoo is spread over a very vast area. My parents brought tickets and we entered the zoo. I was impressed to see many birds, reptiles and mammals. There were many people who were taking pictures and they were enjoying themselves.

The most beautiful bird that I saw was a peacock. It was walking just in front of me with his feathers wide open. The dangerous animals like tigers, lions and bears were in big and strong enclosures. The white tiger attracted a large crowd. The monkeys were excited and they were making much noise on that day.

Word meaning

- spread : covered a large area
- crowd : many people
- enclosure : a cage

Answer the questions below.

1. Who took my sister and I to the zoo?
2. What were the people doing there?
3. Where were the dangerous animals kept?
4. Which animal attracted a large crowd?
5. How were the monkeys on that day?
